

## Fractional CTO

Krijn van der Raadt

### Level up your team and unlock your product development potential

Add a proven leader to your existing product- or engineering team, so you don't have to learn everything the hard way. With 20 years of hands-on experience as a software engineer, product / engineering leader, and executive - at companies ranging from tiny startups to a publicly traded tech company - I've seen it all.

~ \$500M Exit

from Sr SE to VPE & CIO

*"Krijn is a highly intelligent, strategic thinker and planner and an effective technology leader. He was an integral part of helping our company grow from a startup to \$300 million in annual revenues."*

- David Inns, CEO

NICE Acquires MindTouch

joined as VPE

*"His leadership in engineering allowed us to align around an achievable product vision for the year, that could be communicated to both internal stakeholders as well as the market"*

- Andy Vaughn, Head of Product

Nasdaq Listed

built platform org

*"Krijn has a remarkable talent for swiftly building trust, developing an understanding of an individual's professional journey, and guiding them towards achieving their goals"*

- Adam Hansen,  
Director, Technology Platform

Using my deep and broad experience in the following areas, we'll get the most out of your product development team:

- **Product and Technology strategy** - Create clarity and alignment
- **Roadmap, planning, and execution** - Ship lots a high quality product
- **Scaling your team** - Structure to fuel your growth
- **SDLC processes, workflows, and tools** - Short cycles and great Developer Experience
- **Team culture, dynamics, and trust** - A happy team is a productive team
- **Agile / Lean development mastery** - Stop guessing and start learning
- **Customer empathy / discovery practices** - Build things customers will love
- **Architecture / Tech stack** - Build a platform to last

We structure and price the arrangement based on your needs
